Cal Poly SLO

Fall 2023

CPE 133

Instructor: Gary Perks

September 27, 2023

1 Introduction

The goal of this lab was to install Vivado on our systems and then create a project, simulate, then deploy the project to the Basys 3 board. This lab was a success and I was able to complete all of the tasks.

2 Video of Working Project

Linked here is a video of the working project: [Project Video](#)

3 Simulation

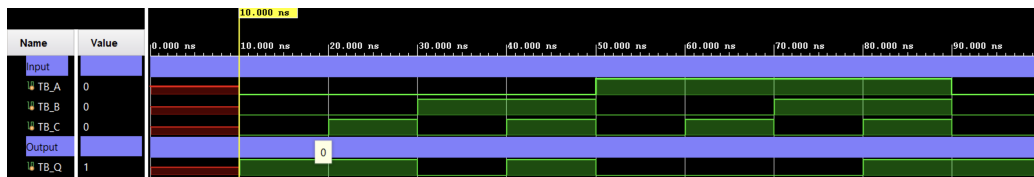

Figure 1: Vivado Simulation

4 Error Log

There were no errors or significant warnings in the Vivado log as shown below.

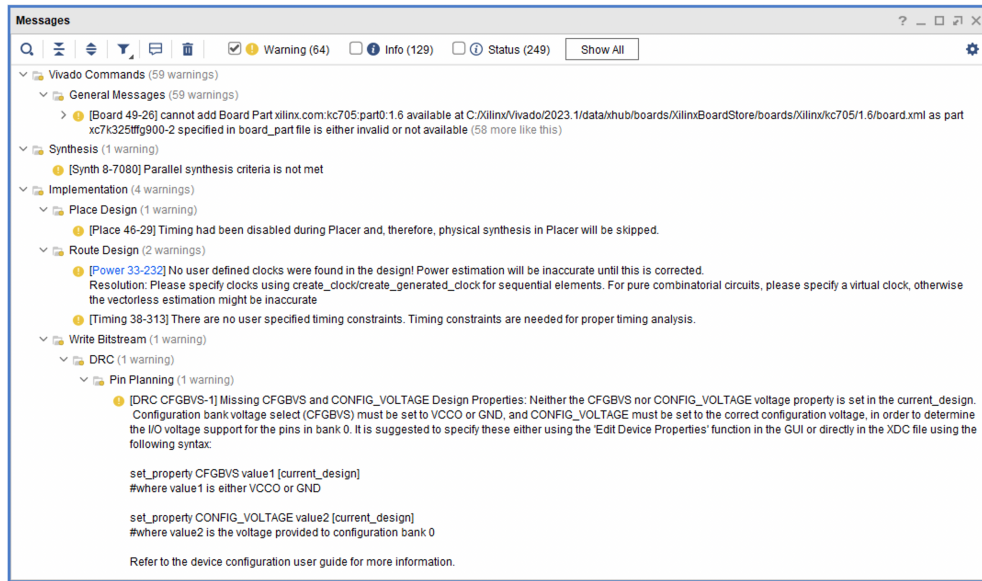

Figure 2: Error and Warning Log

5 Elaborated Design

Presented below is the elaborated design of the project generated by Vivado.
